1 INTRODUCTION

The purpose of this plugin is to overcome some limitations of Quick2Cart used in multi-store, and make our lives easier.

Most notably: (in italics, functionality that hasn't been tested in the latest version of quick2cart 2.9.7)

- Allow customization of the template header banner, terms and privacy per each shop; show terms at checkout and on the store page in a neat popup.
- *Let the store owner input gross prices for products, and automatically perform currency conversions (only Euro to Pound-GBP and AUD currently)*
- *Provide facilities used by payment plugins such as Stripe Connect*
- *Provide facilities used by view hacks to show gross prices, determining the country with Geopip localization*
- *Make Zones, Shipment and Tax creation easy with Wizards*

2 CONFIGURATION

Quick2Cart FJ Extra Fields

system / qtc_fj_extra_fields

This system plugin requires Quick2Cart. It adds terms and conditions, and privacy notice, customized for each shop. It adds wizards to the Zones page to setup Tax and shipping quickly.

Allow multivendor cart

Conversion rate Eur to Pound

Conversion rate Eur to AUD

Conversion rate Eur to USD

Plugin

Advanced

Show Terms and Conditions on the store view

Show Terms and Conditions during checkout

Customize the Terms and Conditions per each store

Default terms and conditions

Show Privacy on the shop view

Show Privacy during checkout

Customize the privacy page per each shop

Default banner

Banner container selector

Folder for store banners

Show an extra custom link on the shop page

4 ZONES, SHIPPING AND TAX WIZARDS

All wizards are available in the Setup menu of the frontend configuration of a shop.

4.1 Export zones

Exports a JSON representation of the current Zones

Zones of the current store
Copy and keep the code below

```
[{"name":"World","store_id":"33","state":"1","ordering":"1","country_id":"103","region_id":"0","ordering":"0"}],{"name":"United Kingdom","store_id":"33","state":"1","country_id":"103","region_id":"0","ordering":"0"}],{"name":"United States","store_id":"33","state":"1","country_id":"103","region_id":"0","ordering":"0"}],{"name":"Canada","store_id":"33","state":"1","country_id":"103","region_id":"0","ordering":"0"}],{"name":"Australia","store_id":"33","state":"1","country_id":"103","region_id":"0","ordering":"0"}],{"name":"New Zealand","store_id":"33","state":"1","country_id":"103","region_id":"0","ordering":"0"}],{"name":"South Africa","store_id":"33","state":"1","country_id":"103","region_id":"0","ordering":"0"}],{"name":"Brazil","store_id":"33","state":"1","country_id":"103","region_id":"0","ordering":"0"}],{"name":"Mexico","store_id":"33","state":"1","country_id":"103","region_id":"0","ordering":"0"}],{"name":"India","store_id":"33","state":"1","country_id":"103","region_id":"0","ordering":"0"}],{"name":"China","store_id":"33","state":"1","country_id":"103","region_id":"0","ordering":"0"}],{"name":"Japan","store_id":"33","state":"1","country_id":"103","region_id":"0","ordering":"0"}],{"name":"Russia","store_id":"33","state":"1","country_id":"103","region_id":"0","ordering":"0"}],{"name":"Other","store_id":"33","state":"1","country_id":"103","region_id":"0","ordering":"0"}]
```

[Close](#)

4.2 Import Zones

Imports the JSON zones, which were exported from another shop. Simply export once and paste in all stores.

4.3 Create Shipping

Just insert the shipping prices, the wizard sets up the rest, including currencies (well, at the moment it is hardcoded for Euro in the main value and it only creates Pound - GBP).

Create Shipping Wizard

This will **DELETE** all shipping profiles, rates and configuration for the current shop

The prices here are in Euro; Pound (GPB) will be calculated based on the currency rate set in the qtc_fj_extra_fields plugin's options

World	<input type="text" value="0"/>
Ireland	<input type="text" value="0"/>
Europe	<input type="text" value="0"/>
United Kingdom	<input type="text" value="0"/>

[Save Shipping](#)

4.4 Create Tax Wizard

Create Tax Wizard

This will **DELETE** all tax profiles, rates and configuration for the current shop

World	<input type="text" value="0"/>
Ireland	<input type="text" value="0"/>
Europe	<input type="text" value="0"/>
United Kingdom	<input type="text" value="0"/>
